

WHAT?

Step into Science Journalism with the MY SCIENCE Programme!
Its goal is to bridge scientific and journalistic communities and to enhance public understanding of science in everyday life.

Take part in six-day workshop at institutes of different fields of science.
Gain and expand knowledge in the research field that is the most interesting for you. Get to know the professionals and exchange best practices with them.
Establish professional networks with new colleagues around Europe.

WHERE?

University of Vienna - Austria
Information and Communication Technologies

BioTalentum - Gödöllő, Hungary
